Dear Patrons

We have a very strong and long history representing Anatoliy Kryvolap. We have represented him for more than a decade and exclusive to us, he is offering our clients a rare opportunity to acquire one of his pieces at an ARTEast rate.

Anatoliy Kryvolap is one of Ukraine's foremost abstract painter. He is the first Ukrainian artist who appeared on the cover of *Forbes* in Ukraine. This Master of Colour needs little introduction and his works of art are setting records at Sotheby's, Christies, Phillips, Bonhams and other major international auctions.

KYIV, May 17 /UKRINFORM/. "The *Steppe* painting by Ukrainian artist Anatoliy Krivolap was sold in New York at the Phillips de Pury & Co auction for the record sum of \$98,500 USD. Thus, the work by Krivolap entered the top-20 of the 305 lots represented at the auction."

Since, 2011, Anatoliy has consistently raised the roof off of the auction houses and in London, at Phillips his 'Night' reached \$124,400.

The fragile beauty of evening in all its colour and vibrancy is the true subject of Anatoliy Kryvolap's paintings. The artist possesses a rare sensitivity to colour and pattern;

HE shows natural phenomena which we might not notice ourselves; a radiant patch of early evening light, a vibrant cascade of sun rays caressing the horizon, glistening reflections in an empty room...

The broad appeal of his exquisitely coloured paintings constantly delights and attracts new collectors.

You will discover the artist's constant urge to render his impressions to his masterpieces. All his artworks are painted impetuously, with such emotional passion that one would only understand by witnessing his work.
