Ukrainian premiere for Myhailo Karlovskiy

Myhailo Karlovskiy. Sculpture in bronze and silver. July 14 - 26. ARTEast.

Originally from Ukraine, Karlovskiy graduated from the Hall Art Institute in Germany in 1998 and has so far held all of his exhibitions there. The exhibition in ARTEast will be the first one in Ukraine and he'll present his bronze and silver sculptures.

Myhailo describes his artistic philosophy as: "It's better to be a free artist than to do what everyone else wants." Karlovskiy is famous for his monuments both in Ukraine (Cherkassy oblast) and in Germany (Dresden and Leipzig), while his collections are displayed in Berlin galleries. It is hard to believe, but his workshop is in a tiny annex in one of Kyiv's downtown yards not far from ARTEast itself. But judging from his sculptures, the surroundings don't play a leading role in the creative process. You'll have a chance to witness this at the gallery.
