

Art in Watercolour

Olena Pryduvalova, watercolours

5 September - 2 October, ARTEast

Olena Pryduvalova, well-known for her watercolours of Kyiv landscapes, presents a new theme - she's been working on still lifes! The exhibition is called 'The World of Things' and promises to be very interesting since Olena's pictures manage to combine a touching primitivism with a very contemporary look. ARTEast invites everybody to have a look at Pryduvalova's art on their website, www.ARTEast.org as well as visiting the gallery and checking out the collection in person. The gallery is open Tuesday - Sunday from 11.00 till 19.00. Call ARTEast on 229-6552 for further information.
