

# *The Artful Georgian Eye*

David Sharashidze's third personal exhibition in ARTEast was opened last Thursday. Despite being pretty expensive, Sharashidze is one of Kyiv's most popular artists. 'I love his work', admitted Michael Bird of the British Council. 'I have a huge painting by Sharashidze, done in truly Georgian style, in my kitchen'. ARTEast is aware of his popularity and are very keen on bringing the artist's new works to the public. 'His previous exhibition in ARTEast featured both paintings and the items featured on the paintings. Georgian furniture and table-ware as well as traditional carpets were on display and sale. This time we also have some matching vases, cups and wine jugs by David' said Iryna Tryhub, the gallery's marketing manager. The exhibition is open till 27 November, so don't miss this great opportunity.
