# Happy Canada Day!

The Canadian Community celebrated Canada Day, 1 July, commencing their celebrations with hamburgers, pizza and beers. The buffet was followed by speeches and a concert. Unlike last year, the weather was perfect, so soon the crowd at the Embassy, with the Canadian flag painted on their cheeks, were wildly dancing to instantly recognisable rock-n-roll tunes. Ambassador Derek Fraser later made a short speech with a very deep meaning. True to the principles of democracy and peace, Canada was formed 134 years ago with-

out bloodshed and has just been named the country with the best quality of life for the eighth year in a row! The celebrations in Kyiv ended with a raffle and a few lives were made brighter by prizes from Austrian Airlines, UMC

and ARTEast among others. For more than a century, Canada has been an example of peace and freedom to the entire world. Vive le Canada!
