

Exhibition Bevza's Bright Colours

Paintings by Petro Bevza
ARTEast Gallery till 8 April

Petro Bevza, one of the most noted artists in Ukraine today, will be featured in a special exhibition arriving soon at ARTEast Gallery. In the show Petro has concentrated on natural subjects such as the female figure, animals, insects and flowers. The artist uses a unique combination of colours and brush strokes to create his paintings using modern methods and technique to present his own view of the awaking of nature after a long winter. The organisers promise the exhibition will bring 'the essence of Spring into your soul.' You can check out these claims for yourself at the exhibition, which is already open to the public running until 8 April. Call ARTEast on 229-6552, or visit www.arteast.org to see the paintings.
